

Model No KS152020

Wall mounted dispenser for hand sanitiser or liquid soap

As we adapt to a world where we are all hyper aware of hand hygiene and it's huge importance in our plight to prevent the spread of infectious diseases, we are delighted to offer a battery operated stainless steel 304 wall mounted dispenser suitable for either hand sanitiser or liquid soap.

With its contemporary design, ultra-low energy consumption and economic price point it is the ideal solution for encouraging hand hygiene, helping us all to stay safe & stay well.

- ▶ Stainless steel AISI 304
- ▶ Especially suited for high-alcohol content (>62%*) sanitising gels, but will also dispense liquid soap.
- ▶ Sensor control designed with SCM, ultra-low energy consumption
- ▶ Sensor distance & volume per activation is adjustable
- ▶ Integrated lock prevents tampering with content
- ▶ All electronic parts are sealed - water & moisture proof
- ▶ Mounting template included
- ▶ Batteries not included
